Delete Topic in ZK Node

When can not delete the topic with Kafka cli you can delete the topic in zk , here is the command.

log in to the zookeeper host, for example :ssh zookeeper3.ss.aws.fwmrm.net

After log on the host

1. sudo su - hadoop
2. zkCli.sh --server zookeeper5.sharedinfra.us-west-2.prd.data.aws.fwmrm.net:2181/matchedlogkafka
3. ls /brokers/topics
4. rmr /kafka/brokers/topics/pair
5. rmr /kafka/admin/delete_topics/pair
6. rmr /kafka/config/topics/pair

Then rolling restart the kafka service. After the topic deleted in the zk, the topic will deleted in kafka as well.
